Dear Joshua and Esther,

many thanks for the wonderful pictures with the flowers. They are excellent and have been entered into the family album with very special care. We have sampled a few of the Stockholm cards available on the market but there are many more in case you dont like any of these. They are printed with the conventional Swedish text but any other text will be printed on ~~my~~ order. Please let us know if there is any one you would like to have and when and where ^{to} ~~it~~ should be delivered. If you would like to have som other type than the ones represented here, please let us know what style you have in mind.

I am afraid that your answer to my card about ²possible microbial geneticist coming here for a year or so has been lost; I have still not received it. Would you be able to send me a copy of it?

We are looking forward with the greatest pleasure to see you soon. Do you know already when you will arrive?

As ever,

Linberg
